GENERAL DESCRIPTION

The DRN-18 is a high power direct radiation sub-bass cabinet in bass reflex configuration delivering 800W RMS. It features one 18" neodymium transducer (4" voice coil) with nomex suspension and surround for increased protection and control, weather protected cone for outdoor use and ventilated voice coil for improved heat dissipation.

The DR-N18 has been designed to be used with the QB-12, QB-15, QB-D6, QB-D8 and QB-D15 to extend the low frequency support. It is made from premium birch plywood and coated with high resistant water-based black paint, includes integrated handles, rubber feet and top hat insertion point for satellite combination with the QB Series.

The cabinet can be used in both horizontal and vertical configuration.
